

A newly developed machine, the REM 3350 combines all the features of the classic & durable REM 3250 and the robustness of the REM 3750 into a smaller diameter center-surface winder. The REM 3350 is great for handling materials such as papers, laminates, nonwovens, pressure-sensitive tapes, films, foils, fabrics, label stocks, and textiles.

# 3350

[general-purpose workhorse]

---

Integral unwind stand mounted to a common base

---

Pneumatic unwind brake

---

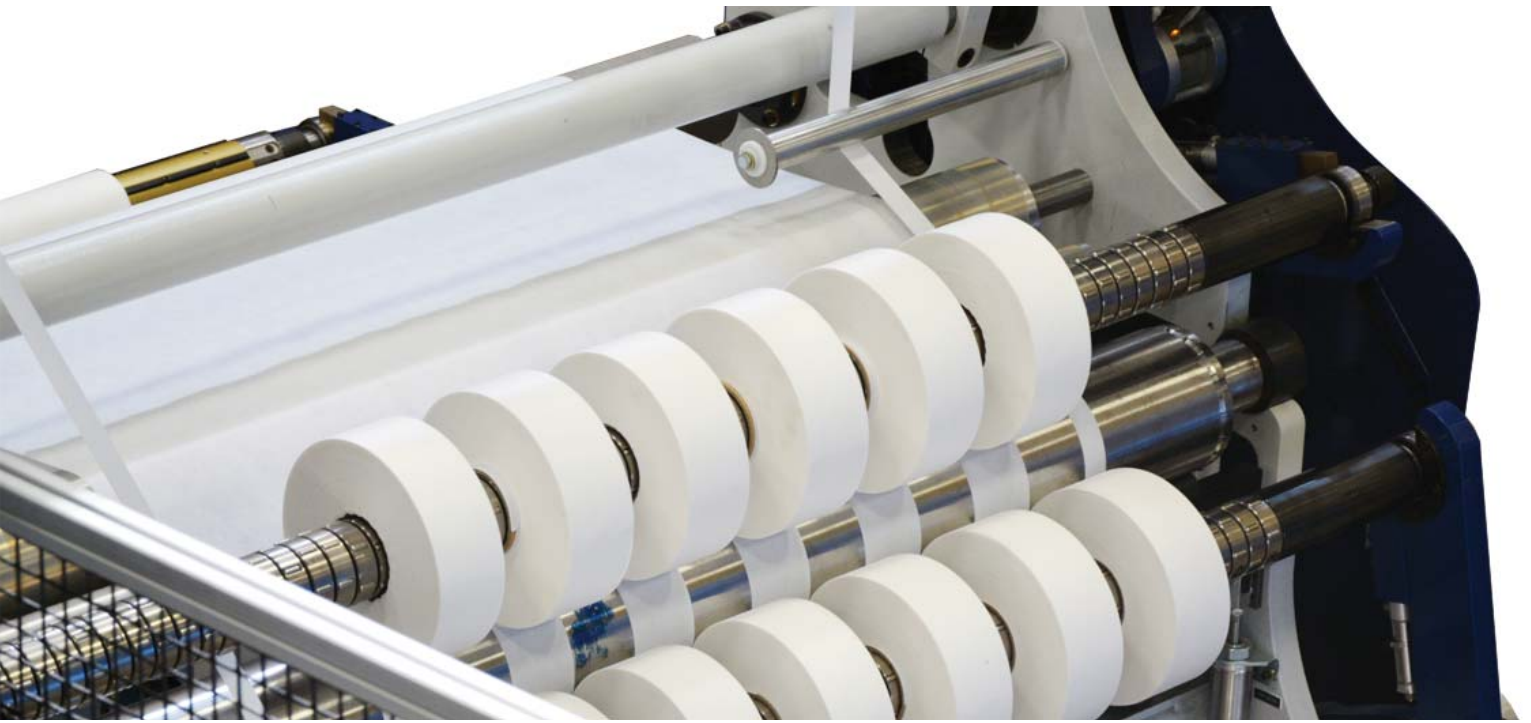

Automatic edge guide

---

Slitting Cartridge System

---

Unwind  
30"

Rewind  
24"

Web Width  
62 | 72"

Speed  
500 fpm

**Shaft Type:**

- Differential Cam-Loc [Optional: Locked-core]
- Cantilevered [Optional: Flanged, Lift-out]

**Winding Methods:**

- Center-Surface
- Center
- Surface
- Minimum Gap

**Slitting Methods:**

- Score
- [Optional: Shear, Razor]

**Optional Accesories:**

- Roll Unloading Tree
- Independant Roll Pushers
- Static Control
- Splice Tables
- Trim Winders
